

INSTANT HD

Modular Scaffolding System

**Heavy Duty Modular
Aluminium System**

**INSTANT
UPRIGHT**

LIGHTER

Weights
50% less

STRONGER

Patented
cold-form joint

SAFER

Reduced
risk of injury

FASTER

Assembly
times reduced

**REDUCED
COST**

Up to 30%
reduction

STRONGER

Patented cold-form joint provides 100% improved load capacity over welded aluminium joints

LIGHTER

Constructed from high strength aluminium alloy. Instant HD system weighs 50% less than comparable steel systems

FASTER

Reduced component weights and a lower volume of components means assembly times can be reduced by over 20%

SAFER

Lighter components reduce the risk of injury and long term physical strain on workers

REDUCED COST

Up to 30% reduction in labour, transport and storage costs

Tested to EN12810 and available in both conventional and metric versions.

Cutting-edge technology is the cornerstone of what we do

Instant HD is at the forefront of design in modular scaffolding systems. Manufactured from aluminium, it's lightweight, incredibly strong and highly durable. This makes it the system of choice in heavy-duty applications where safety, speed and versatility are paramount.

Our patented Coldform jointing process is a technological advancement on our original Rib-Grip jointing system successfully used in our aluminium towers for over 50 years. Instant Upright remain the market leader in the use and development of this technology.

About us

Instant UpRight is a global brand, pioneering the design and manufacture of aluminium access solutions for all sectors of industry.

With a team of renowned industry specialists spanning multiple disciplines, we've an unequalled heritage of supporting high-profile projects around the globe. Our purpose designed access solutions deliver performance to the highest standards in the toughest environments and are recognised for their longevity.

Manufacturing and design quality are fundamental to Instant UpRight's success. Our state of the art European factory includes an advanced production facility, world class manufacturing, first class engineering support team, and ISO 9001 quality accreditation.

For more details or to book a demonstration of the all new Instant HD please contact our expert team on:
